

21 DAY-VOCAB-CHALLENGE

Every day for 21 days, you will write one new word and, if you are brave enough, you can also write a simple sentence with it. It will not require a lot of time, **just one minute a day**: one day one word.

For example: manzana → como una manzana.

The words are classified by topics, families, synonyms and so on.

Where to send your answers? I will provide a Google Sheet where you will see your progress. If it's easier for you to type your answers on a private Whatsapp message, it is possible, so you won't need your computer.

After 21 days, I will share the Google Sheet with all your answers together, along with the correct answers.

Is it a group challenge? Not necessarily. It's an individual challenge. However, if more people join, we can make it together.

Is it free? Almost free!! It costs just 21€. So 1€ per day.

When do we start? We will start as soon as you contact me and you are ready for it!!! More challenges are coming so keep updated!!!
